DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant has successfully argued on page 6 of the Reply Under 37 C.F.R. 1.116 that the term Packet Data Protocol (PDP) as used in independent claim 1 refers to a GPRS term for a range of protocols that support packet data transfer over a 3G wireless cellular network and is not the Internet Protocol. As stated in independent claim 1 the limitation of determining that a mobile device is in a second data communication network and then initiating a transition to the second data communication network by sending a Packet Data Protocol context request towards the first data communication network in combination with the remaining limitations of independent claim 1 are not taught or made obvious by the prior art. The rejections to independent claim 1 and claims 2-4 and 8-15 depending from claim 1 are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
